

DURABLE AND TIMELESS OUTDOOR FURNITURE

Our story began in the 1930s when Henri Inderchit, a doll chair manufacturer, responded to a request from a bistro owner who wanted to equip his terrace with human-sized director's chairs. **The F101 director's chair was born.**

The director's chair flourished in the 1950s, becoming an iconic piece of furniture. It was at this time that Henri's son, Louis, designed **Sénéquier's famous red terrace of Saint-Tropez**. A partnership between our two houses that is lasting after sixty years...

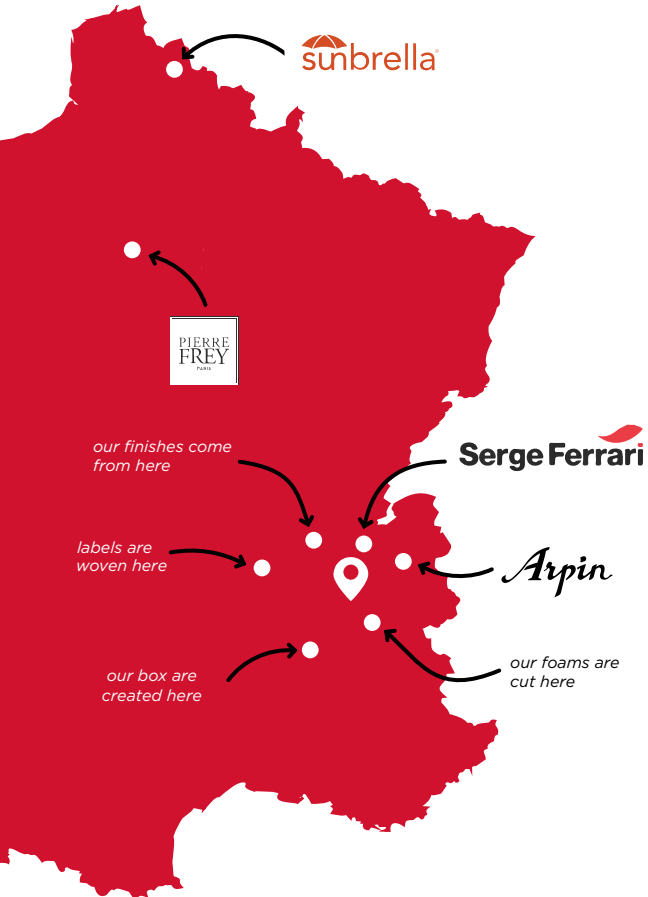

The family adventure became that of Azur Confort in 1989, with the arrival of the third generation.

Since it was taken over by Raphaël Voisine in 2016, Azur Confort has become a reference in wooden outdoor furniture. Today, **we offer a complete range of outdoor furniture** for catering and hospitality professionals, made in France, with a strong focus on eco-design.

Azur Confort offers you complete assistance in designing your outdoor spaces.

■ SUSTAINABLE AND CUSTOMISABLE FURNITURE

From the very start, Azur Confort furniture is designed for its resistance and ecological impact: this is what we call **sustainable furniture**.

To manufacture our furniture, we use wood species native to Europe (Robinia, Beech, Chestnut) from local sources. This choice significantly reduces the ecological impact of our furniture.

Our foams and fabrics are selected for their technical properties and high quality. To achieve this, we work with **local partners who are experts in their field** and with whom we share the values of Made in France.

Choice of colours, fabrics, screen printing, ...
Customising your furniture allows you to create a **unique terrace that reflects your company's image**.

■ FINISHES

LACQUER

Our signature finish: lacquer covers the wood completely, giving the furniture protection, shine and colour. We offer a range of twenty colours to choose from to create your own terrace.

WOODSTAIN

Woodstain brings out the look of the wood while protecting it. Less opaque and glossy than lacquer, you can choose between a light, dark or coloured stain for the DAIRI collection.

OIL

Oil is a light finish that enhances wood: it impregnates the wood with a light tint, and protects it from external conditions.
